

Atollspeed

Atollspeed is the newest innovation from Kolb. Thanks to the combined power of impingement and microwave, Atollspeed is able to quickly cook/reheat/bake foods to reach a crispy and brown baking result and is specially designed for busy QSR, coffee shop, take-out outlet, restaurant, snack bar and bakery.

Atollspeed feature:

- Defrosting, heating up, cooking and baking in one go
- Versatile application for easy menu extension
- Less is more, able to replace several equipment
- The newly launched Touch Screen version Nano/300T/400T, easier and more fun to use
- Outstanding insulation, high energy efficiency
- Up to 100 pre-set programs, USB port for easy program store and transfer, ideal for chain operation
- Internal catalytic converter, suitable for both indoor and outdoor settings
- Able to bake with metal utensil for different baking result
- Atollspeed Nano/Nano 2/300T, models only requires 230V/1ph, just plug and use
- Atollspeed 400T, 400v/3ph, double microwave power, for faster cooking
- European high Quality components
- CE Certificate

Atollspeed

“Speed” Baking is the Future!

Technical Details

Model	Atollspeed Nano 2 K02-3003T1S-B
Dimensions of machine (WxDxH)	450x685x570 mm
Door open Dimension (WxDxH)	450x880x570 mm
Dimensions of baking chamber (WxDxH)	317x311x170 mm
Weight of machine	69 kg
Power	3.3 kW
Voltage	220~230V/1ph+PE/50Hz
Current	15 A
